

Energy at the Bottom of the Swing

At the lowest point of the pendulum's swing:

a.) $PE = mgr, KE = 0$

b.) $PE = \left(\frac{1}{2}\right)mv^2, KE = 0$

c.) $PE = KE = 0$

d.) $PE = \left(\frac{1}{2}\right)mv^2, KE = mgr$

e.) $PE = 0, KE = \left(\frac{1}{2}\right)mv^2$
